About US

We are business minded creative producers.

in other words, we are passionate about art buying, casting, location scouting, set styling, postproduction management and all those creative tasks that help to deliver a successful shoot. At the same time, we stay totally focused on budget management, usage negotiation, contractual obligations, crew booking (including local teams), and all the necessary pre/onset/post arrangements.

Where We Are

We are in Italy and the UK

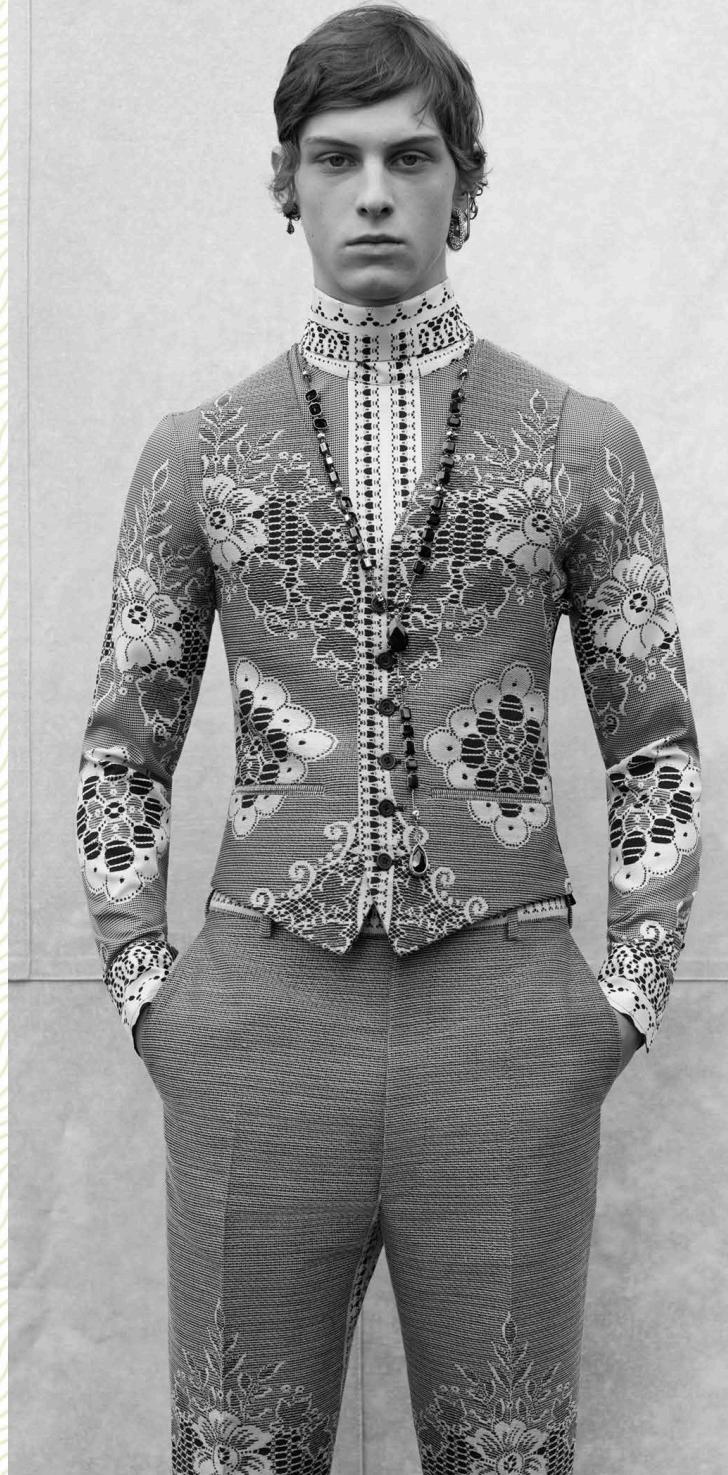

We are based in Rome and Milan, but we travel up and down the "boot" covering major shoots. The UK is our second home where we have been producing for more than 15 years! But we always stretch the extra mile shooting also in NYC, LA, Paris, Marrakech, Dubai, Thailand and more.
